

While Vectren will always deliver your natural gas – we don't supply it. However, there are a number of available supplier options.

You could choose...

a rate that **changes** with  
the price of natural gas

a **stable** rate, for the  
entire year

**You have an opportunity to choose your natural gas supplier from one of our trusted partners.**

Since 2008, when Vectren exited the natural gas supply business, we have partnered with a select group of suppliers to provide our customers with natural gas. You can remain with a Standard Choice Offer Supplier (the default option) but making your own choice may give you more appealing pricing options, such as locking in a fixed rate.

**Note:** All Standard Choice Offer (SCO) suppliers offer gas supply at a variable rate, which fluctuates each month.

**Making the choice is easy, and we'll show you how!**

**VectrenChoice.com** gives you an accurate, streamlined source of information that includes all of our natural gas supplier partners. You can easily compare rates, plans and options, and choose the supplier that best suits your needs – or stick with a default supplier known as the Standard Choice Offer.
