Call: 1.866.749.7206

**A professional energy advisor will visit your home and guide you step-by-step through the process to produce long-term, cost-effective savings. The advisor will:**

- Assess the heating, ventilation and air conditioning (HVAC) system to determine if it is operating efficiently
- Inspect the air duct sealing, insulation levels, and more to evaluate your energy consumption and heating and cooling efficiency
- Provide a comprehensive report detailing what can be done to save more energy and make your home more comfortable
- Install several high-efficiency items to help kick-start your energy savings, including CFLs, faucet aerators, showerhead, water heater pipe insulation and a furnace filter whistle

*This program is provided by Vectren at no additional cost to participate.*

**You may be eligible for the Income Qualified Weatherization program, if you:**

- Reside within a geographic neighborhood that meets specific income levels
- Are currently enrolled in a utility Energy Assistance Program (EAP)
- Are currently served by the Purdue University Food and Nutrition program or another authorized organization
- Have not participated in the American Recovery and Reinvestment Act (ARRA) or weatherized through another agency in the past 10 years

**This program offers the same benefits as a Home Energy Assessment, but includes:**

- Sealing air leaks in ductwork, walls and windows identified by blower-door diagnostic testing
- Improving attic insulation, if indicated by testing
